

# Mixlab is a PCAB® Accredited compounding pharmacy!

Our PCAB® accreditation demonstrates Mixlab's commitment to superior standards of excellence in prescription compounding. Beyond compliance with all applicable state and federal regulations, Mixlab raises the bar to exceed industry standards and ensure only the **highest level** of purity and potency standards for your clients.

As part of our **PCAB® Accreditation** and commitment to delivering superior products:

- ★ We compound using USP-grade chemicals and exceed USP <795> standards.
- ★ We source ingredients from FDA-registered facilities.
- ★ We employ veterinary-trained pharmacists who are Fellows of the American College of Veterinary Pharmacists (FACVP).
- ★ Our tolerance standards are over 3x more stringent than industry standards resulting in more precise dosing.
- ★ Our pharmacy facilities are clear and free of contamination and use HEPA-filtered air circulation systems.
- ★ We perform specialized training and regular audits for compounding pharmacists and technicians, and our team must pass 3rd party quality and potency tests before they begin compounding.
- ★ We agree to adhere to the PCAB® "Principles of Compounding" and have periodic third-party audits from PCAB.

## ABOUT PCAB®

The Pharmacy Compounding Accreditation Board (PCAB) is a nonprofit organization that provides a voluntary accreditation program for compounding pharmacies nationwide. Formed in 2007 by eight of the nation's leading pharmacy organizations, PCAB promotes, develops and maintains principles, policies and standards for improving the quality of pharmacy compounding nationwide.

★★★★★ 5 stars on Google, Yelp and Facebook!

# We stand by our products because every pet deserves only the best.

We strictly follow all applicable U.S. Pharmacopeia standards. Our ingredients are sourced from industry-leading suppliers and FDA-registered facilities and go through a rigorous quality assurance process to ensure that only the best is used for our treatments.

We are currently licensed in the majority of states across the country and are a proud member of the Professional Compounding Centers of America.

## VETERINARY EXCLUSIVE

Humans are great, but our pharmacy and staff are dedicated to serving only veterinary patients.

## STRINGENT QUALITY MEASURES

Our robust Quality Assurance program utilizes a third-party analytical lab for testing and validation, to ensure the highest quality.

## SIGNED OFF BY THE BEST

We pride ourselves on being experts in veterinary pharmacy and are staffed by Fellows of the American College of Veterinary Pharmacists.
